SUMMARY

AI/ML Engineer with hands-on experience in Python, LLMs, RAG, LangChain, LangGraph, and n8n automation. Built 7+ projects including AI chatbots, agentic systems, and full-stack web apps. Proficient in OOP, ML model development, REST APIs, SQL, TensorFlow, PyTorch, and Git. Experienced in full-stack development with React.js and Django.

TECHNICAL SKILLS

Languages	Python (primary), SQL, JavaScript (React.js)
AI / ML	Machine Learning, Deep Learning, NLP, Computer Vision, LLMs, Generative AI
Agentic AI	LangChain, LangGraph, n8n, AI Agents, MCP, RAG, Prompt Engineering
Frameworks	TensorFlow, PyTorch, Scikit-learn, Hugging Face, spaCy, OpenCV, Flask / FastAPI
Data & Viz	Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Power BI (Dashboards, DAX)
EDA	Exploratory Data Analysis, Data Cleaning, Feature Engineering, Statistical Analysis, Visualization
APIs & DBs	OpenAI API, Groq API, REST APIs, JSON, PostgreSQL, MySQL, Supabase, User Auth, JWT
Dev Tools	Git, GitHub, VS Code, PyCharm, Razorpay
Core CS	OOP, Data Structures, Algorithms, Debugging, Logical Reasoning

PROJECTS

TalentIQ – HR AI Analysis Platform *(Python, Streamlit, Scikit-learn, NLP, LangChain, LLMs, AI Agents)*

- Built an AI-powered HR platform automating Resume Screening & Candidate Evaluation using LLMs and AI Agents, processing 500+ resumes/batch
- Designed NLP pipelines for Intent Extraction & Text Classification — achieving 92% accuracy across 15+ intent categories
- Integrated an AI Chatbot with RAG-style retrieval & Prompt Engineering for recruiter Q&A using LangChain
- Impact: Reduced screening time by 80% (5 hrs → 1 hr/cycle), saving 20+ hours/week for HR teams

Data-Driven Stock Analysis Platform *(Python, Pandas, NumPy, SQL, Power BI, Streamlit)*

- Analyzed 50 Nifty stocks across 200K+ records with 10+ interactive dashboards using Python, SQL & Power BI
- Optimized ETL pipeline reducing processing time from 45 min → 12 min (70% faster), automating 8+ financial KPIs
- Impact: Enabled 5x faster investment decisions, eliminating 3+ hours of manual Excel analysis per cycle

GoGreen Trust – AI-Powered Eco-Friendly Web Platform *(React, Django, LangChain, RAG, Groq API, n8n, SQL, Razorpay)*

- Built a full-stack web app for environmental awareness using React (frontend) and Django (backend)
- Developed 'Jessy' — an AI voice assistant using RAG & LangChain with Groq API for website navigation and automated form filling
- Integrated n8n workflows for backend automation, event triggers, and notification pipelines
- Implemented Razorpay payment gateway, user/admin authentication, and session management
- Impact: Delivered a production-ready, 100% responsive AI platform improving user experience by 60%

GIRI UK – AI Chatbot Automation *(n8n, LangChain, WhatsApp API, Supabase, Hostinger, Agentic AI)*

- Designed and built a multi-agent AI chatbot for a UK-based client using n8n as the automation backbone, deployed on Hostinger
- Implemented intent-based routing with 5 specialised agents: Onboarding Agent (customer data collection), Router Agent (intent classification), Normal Agent (conversation), Static Agent (FAQs & policies), and Unknown Agent (out-of-scope handling)
- Integrated WhatsApp for real-time messaging and used Supabase for user authentication, session management, and database storage
- Architected for extensibility — next phase includes Product, Order, and Support agents with deeper API/data integration

EXPERIENCE

Abrandr Solutions — AI Engineer Intern *(WFH)*

Chennai, Tamil Nadu (Work From Home)

- Delivered the GIRI UK AI Chatbot — a production multi-agent system using n8n, LangChain, and WhatsApp API, deployed on Hostinger
- Designed agentic workflows with intent routing, customer onboarding, and multi-agent coordination for a live UK-based client

Etex Solutions — AI Full Stack Development Intern

6 Months | Madurai, Tamil Nadu

- Built and maintained full-stack web applications using React.js (frontend) and Python Django (backend)
- Developed REST APIs, integrated databases, and implemented user authentication and session management
- Collaborated on end-to-end feature development — from UI design to backend logic and deployment

EDUCATION

IIT-M Guvi — Artificial Intelligence & Machine Learning

07/2025 – 12/2025 | Madurai

The American College — BSc Computer Science

08/2022 – 05/2025 | Madurai

Certification: IIT-M Guvi — Artificial Intelligence and Machine Learning
